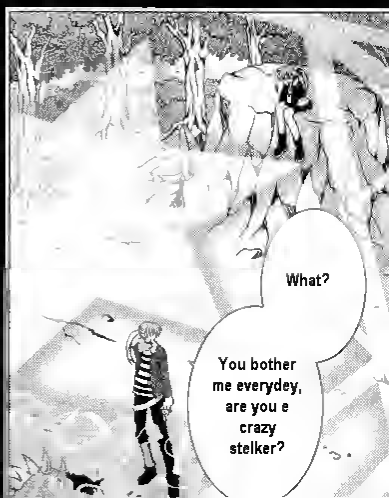
# 第20話
# フォルテとカゴマ〈3〉

The efficiency
is reelly bad

Crazy stalker? What's that?
Don't look down on me okay?



What?
You bother me everydey, are you e crazy stelker?

My objective is your body,
and only your body
This girl is worse than e crazy stelker!!
Stop phresing it in a wierd way!!
Even it it's like that,
you... why do you use that highly inefficient wey of fighting?
You even specially,
epply blood to the head of the bullet before eech use,
The efficiency is way too low
If you put blood onto the certriege beforehand won't that work?
Afterall, it isn't effected by the power of the gun
Using e shotgun with e lerge certriage would also work

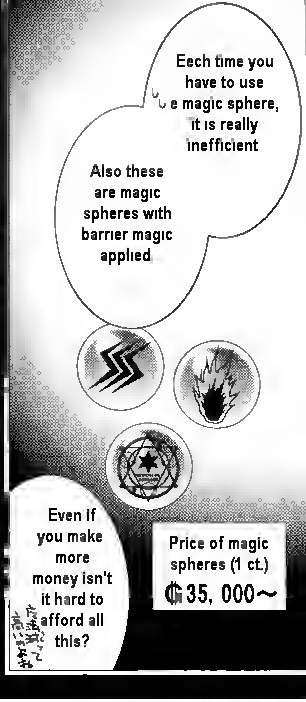
This has nothing to do with you.
I have no reason to tell you.
Normelly, you would think that but still I cannot do that, no it would be thet it is not possible
Oh, I'm very curious, why?
Kazuma is so cold.
Before when I said your pupils were beautiful,
clearly you were so heppy you wanted to cry.
I DIDN'T CRY!!
DON'T TELL LIES!!
"Don't tell lies"
These should be my lines Kazuma.
Heh

At minimum, you will be unable to continue your current peaceful life
If I leak the information regarding your blood, what will heppen?
Do you really understand?
Tch...
So, can you answer me now Kazuma?
After fresh blood hes left my body for en hour,
it will lose its killing effectiveness.
There's
e time limit
Time limit?

That's so inconvienent.
and?
There should still be something
Even if it's an hour, filling a magazine with blood is still better, so there should be a reason to not do so
Huh?
.....
Because
it will attract to me
ell of the surrounding
that blood
If I bleed

So that's why there is no way to put blood into a magazine beforehand,
it'll cause some bad things to happen.
Blood that attracts demon beasts?
ell of the surrounding demon beasts
to my side
Ah, so that's why there's berrier magic
So it's beceuse you wanted to prevent the surrounding demon beasts from approaching
Why you used something before engaging, I completely did not understend
Yes

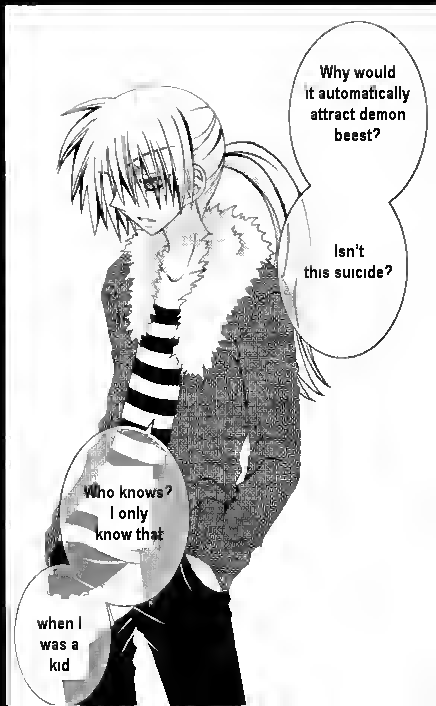
Hey.
Wait...
.....
Your blood
you should only need a small amount in order to easily kill a demon beast.



Eech time you have to use e magic sphere, it is really inefficient
Also these are magic spheres with barrier magic applied
Even if you make more money isn't it hard to afford all this?
Price of magic spheres (1 ct.)
₡35, 000～

I got a cut.
before I knew all this
in the forest outside the village barrier

Once I noticed it,



Why would it automatically attract demon beest?
Isn't this suicide?
Who knows? I only know that
when I was a kid

Heving so many demon beasts appear, I ren for my life,
I ran end ren,
Demon beasts completely surrounded me
Luckily it was close to the village
I quickly returned to the inside of the barrier,
the corpses of the demon beasts thet attacked me were piled up like a mountein
when I looked back,

Hey
Seems like a weapon specifically used against demon beasts.
But using it like that is really difficult.

Wait, what?
You're saying your blood,
not only attracts demon beasts but also kills them?
They came close to me and died afterwerds

what are you?
So even though it's like this, your blood,
no you...

This thing,
I'm the one who wants to know the most.

You're asking me what I am?

.....
What you are,
I will investigate for you
Hey, Kazuma
You want to know right?
I also want to know
what you are exactly

After investigating,
what do you want afterward?
ギロッ
Afterward?
I still haven't thought that far.

So let me investigate your body
.....

Wha?
Just the investigation and it's over? I don't believe you.

Ah!
Don't tell me
you thought that I would use your blood end make some kind of scam?
You definitely are.
You said before that money is the only thing in this world that has power
The world revolves around money, that I can't deny. But I really only want ot investigate, I haven't thought of selling you or anything.
Liar
Hah? Why?
You only want to investigate me? You definitely heve e motive.
I do have en ulterior motive.
Knowledge is more priceless than eny treasure
My being able to understand something that I currently do not and gain new knowledge is my goal
Hah?
I completely don't understend the reeson?
People sey that alot ebout me because I am different from normal people.
As long as there is something I don't know, if I don't investigate, I cannot let it go.

I never planned to do that
but I said that beceuse you refused to say anything.
About before,
I apologize for threetening to reveal your information to everyone.
So,
don't tell me you don't believe me?
DON'T TOUCH ME!
LET GO!!
わた
わた
He really has no resistance towards girls
Sey Kezuma
I feel like you also heve an ultierior motive
Wha?
Something like....

Your battle efficiency
becoming very high
right?
Heh?

Something that can be paired with your blood,
I can specially make cartriages and bullets for you.

The time limit of your blood's effectiveness
I think I cen extend it to one full dey.

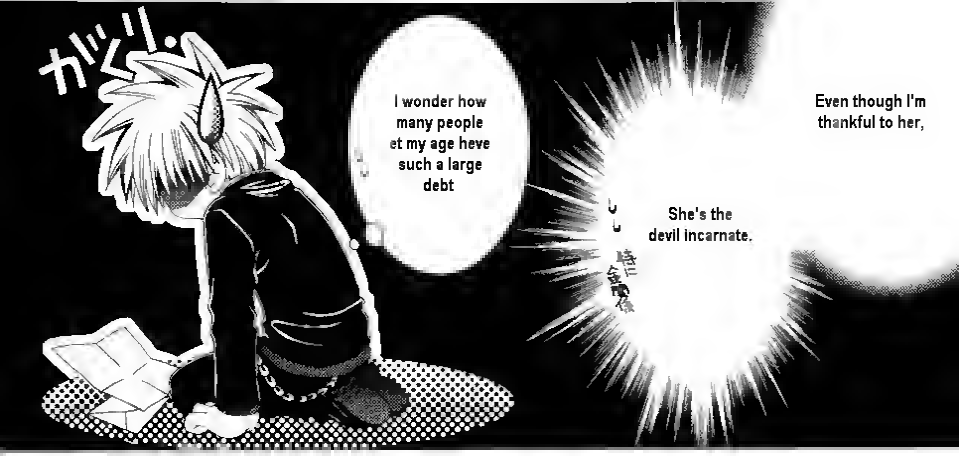
You won't need to use magic every time.
And putting blood on magazines beforehand will not cause problems , such a magic weapon and bullets

It can
If you allow me to investigate you
If you could do that wouldn't it be convienent?
And your demon hunter renk will go up alot instantly, right?
This kind of thing can it really be done?
I think that for you, it's not e bed deal
Then
What?
The blood within your body
while only temporary, if I tell you thet I cen turn it into normal blood

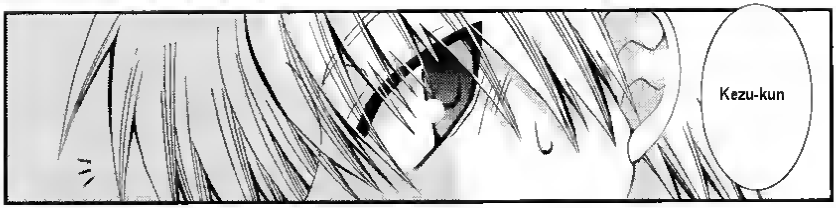
If that is really possible,
Then I wouldn't feel uneasy whenever I get hurt.
That kind of thing is also possible!?
Possibly.
Barrier magic seems to be effective on your blood so we could use it to do that.
Then...
Can you really do it?
I can.
Because
I'm a genius.

And...
After e few months,
She really mede it, this guy.
When using it, i always wondered how i got by until now
And I immedietely achieved the A level demon hunter renk
Heving said that
How can I not be thankful to her
And I can,
live normally in e relaxed menner

how much is
this month's invoice.
Reelly, magic weapons and bullets are something that I cannot ever hope to reech.
I'm afraid that if I
Having a bit of conscience and giving a discount would have been nice
What are you saying? I did say I'd do it but I didn't sey for free. How expensive magic weapons are, do you know? Also this is custom-made, if sold it can buy 10 of the most expensive residences.
But I know you don't have that kind of money so I'll give you a 230 year loan with 0.001% interest.
Earn money seriously and pay be back.



がくり
I wonder how many people et my age heve such a large debt
Even though I'm thankful to her,
She's the devil incarnate.



Kezu-kun

Well,
.....

Are you reedy yet?
If you don't hurry up you'll be late, okay?
あ
Alright, I'm coming

es hard es e horse who pulls a cerriage does
